JOIN THE CLUB

The spectacular new heart of the Whitetail Club finally comes to life.

It's hard to imagine that the legendary **WHITETAIL CLUB** in McCall, Idaho, could improve upon perfection; yet, with the opening of its magnificent new 16,000-square-foot clubhouse, it has indeed. Bringing the community's social hub to life has been a formidable feat, but also a labor of love for the Whitetail Club team that has worked with steadfast fervor for the past 24 months to create what some say is the most impressive clubhouse amenity in the Pacific Northwest. "The Whitetail Clubhouse and all that it encompasses, from its incredible interior amenities to its world-class location right on beautiful Payette Lake, is just one reason why this facility is so extraordinary," explains Whitetail Club President Dan Scott. "We are thrilled to have created something so distinct that gives our members yet another reason to call Whitetail Club home."

With Whitetail Club's well-heeled owners and members in mind, nothing short of perfection would suffice. Designers captured the essence of the Whitetail community and the spirit of McCall by incorporating warm tones, natural details, and contemporary-yet-rustic fixtures. The result is a bespoke lakeside mountain sanctuary that pays homage to a time when life was simpler, organic, and genuine. "We pride ourselves in the value we bring to a life well lived here in McCall," emphasizes Scott. "Here, style and sophistication meet world-class adventure and amenities in a chic gathering place for all ages."

Nothing works up an appetite quite like an active lakefront/mountain lifestyle. By popular demand, the reimagined clubhouse features multiple dining options, from quick more casual bites to elegant fine dining—all of which reflect a bounty of fresh, local ingredients from this richly fertile region. The Clubhouse Restaurant serves elevated Pacific Northwestern cuisine as well as familiar

American favorites for breakfast, lunch, and dinner all year long. The new Clubhouse Bar is an adults-only slice of heaven with chic libations and wines served alongside live entertainment and impressive lake-view sunsets. Members can retreat into the warmth of the indoor dining room when the weather is less than fabulous, or venture to the outdoor deck to cozy up next to multiple fireplaces.

At the Whitetail Clubhouse, business and pleasure meld effortlessly. Should one's professional juices get going while sitting in one of the two year-round saline hot tubs, members now have a place to get down to business without having to call it a day and rush back home. The new state-of-the-art Business Center is just down the hall from the Kids' Room and Teen Center, making it a convenient space to catch a conference call or host an impromptu meeting while the kids catch up on important matters of their own—like an energizing round of video games.

Regardless of the season, there is always adventure to be had. Summers are now better than ever with the club's new Boathouse at Payette Lake. This lakeside aquatic center celebrates water sports and activities, providing everything members need to make waves. A members-only exclusive beach, located along more than 300 feet of pristine lakefront, provides beach-goers with the luxury of lounging and swimming without the crowds. A long-awaited new dock will moor Whitetail Club-owned boats and provide limited day-use dock space for member vessels. Members can enjoy the new dock and a hassle-free beach day with chaise lounges, umbrellas, and endless entertainment on the water via stand-up paddleboards, kayaks, canoes, and more. Says Scott enthusiastically, "With our new Whitetail Clubhouse and Boathouse, we look forward to having a front-row seat as we watch our members and their families make memories that will surely last a lifetime." www.whitetailclub.com —CORRY COOK
